

# CSU INTERNATIONAL PROGRAMS APPLICATION SEASON DEADLINES

CSU IP offers academic year, calendar year, and semester program options. Below you will find the application deadlines for each application cycle along with signification dates during the application season. CSU IP recommends that students apply by the priority deadline, as not all program will be available for secondary and late deadline options.

## **APPLICATION REVIEW**

All student applications are reviewed by the Academic Council on International Programs (ACIP) Student Affairs Committee (SAC). The committee is comprised of faculty members from various CSU campuses, one IP Coordinator, and one CSU IP alum student member. Admissions decisions are review by the faculty and IP Coordinator using an application review rubric.

## **IP COORDINATOR RECOMMENDATIONS**

As part of their IP application, student must request an IP Coordinator Recommendation. The recommendation is facilitated electronically through their IP Portal. The recommendation may be completed by the IP Coordinator or the students' study abroad advisor. The recommendation serves as an opportunity for your office to assess applicants' suitability for student abroad. While the recommendation is weighed during the application review for all program, it is especially important for programs that are competitive with limited spaces available. Recommendations are due two week after the priority deadline and one week after the secondary and late deadline.
