

Academic Bulletin for Taiwan: National Taiwan University 2018-19 and 2019-20

Introduction

The Academic Bulletin is the CSU International Programs (IP) “catalog” and provides academic information about the program in at the National Taiwan University in Taiwan. This document supersedes the previous bulletin.

CSU IP participants must read this publication in conjunction with the *Academic Guide for CSU IP Participants* (also known as the “*Academic Guide*”). The *Academic Guide* contains academic policies which will be applied to all IP participants while abroad. Topics include but are not limited to CSU Registration, Enrollment Requirements, Minimum/Maximum Unit Load in a Semester, Attendance, Examinations, Assignment of Grades, Grading Symbols, Credit/No Credit Option, Course Withdrawals and other policies. The *Academic Guide* also contains information on academic planning, how courses get credited to your degree, and the academic reporting process including when to expect your academic report at the end of your year abroad.

To access the *Academic Guide*, go to our website [here](#) and click on the year that pertains to your year abroad. For general information about the NTU Taiwan Program, refer to the CSU IP website under “[Programs](#)”.

Academic Program Information

CSU IP is affiliated with National Taiwan University (NTU) in Taipei.

CSU IP students enrolled at NTU are required to take:

- one NTU General Chinese Course each semester;
- NTU courses taught either in English or Chinese (depending on their Chinese language proficiency);
- 15 units each semester (see paragraph below).

While CSU IP requires that CSU IP students enroll in a minimum of 15 units each semester, it may not be possible for students at NTU to meet this requirement due to variable units assigned to NTU classes. Therefore, students at NTU will be allowed to take a minimum of 14 units per semester without obtaining approval from CSU IP via petition as long as students check with their home CSU campus to ensure that this is allowed and they will still be able to make progress towards graduation. While students are permitted to take up to 19 units without requesting approval from CSU IP, students should be cautioned from taking excessive units particularly in their first semester of study.

Students with intermediate or advanced Chinese language proficiency may take Applied Chinese courses designed specifically to meet the needs of non-native speakers to acquire practical Chinese language skills. Please refer to section entitled NTU General Chinese Courses and NTU Applied Chinese Courses. Note that students accepted to participate in the NTU program will not be permitted to take courses at the Chinese Language Program (ICLP).

All Physical Education courses are one (1) CSU unit. Students are limited to enroll in one Physical Education course per semester.

Service Learning

CSU IP students have the opportunity to take Phys1038 - Service Learning: International Companions for Learning for two units of credit. This is a national program which provides an opportunity for international students to pair with local children from (mostly countryside) schools to assist with the preparation of lessons and translation. This course involves weekly skyping and fully sponsored trips to the schools. Two official certificates, one by Ministry of Education and the other by NTU, will be issued to students to recognize their contribution. Fluency in Chinese is not mandatory. This course is lower division.

NTU General Chinese Courses

NTU General Chinese language courses are offered from NTU Graduate Program of Teaching Chinese as a Second Language Department. The National Taiwan University (NTU) Graduate Program of Teaching Chinese as a Second Language was founded, designed and supported by the collaborative effort of the University Graduate Institute of Linguistics, the College of Liberal Arts, the Department of Chinese Literature and the Department of Foreign Languages and Literatures. The instructors from the Graduate Program of Teaching Chinese as a Second Language department have outstanding practical Chinese teaching skills and strong academic Chinese teaching research background. The curriculum focus on international trends and theories with empathize on practical approach.

NTU General Chinese Courses teach Chinese language specifically to international students based on their Chinese level. The General Chinese Course consists of six hours of instruction per week. Each class has 25 to 30 students to ensure that students improve their listening, speaking, reading and writing skills. Students are placed in classes based on the placement test result. Enhancing Chinese Course is optional for those who are also enroll in the General Chinese Course. The Enhancing Chinese Course is an intense reinforcement of Chinese using Chinese character, conversational language with focus on pronunciation. The Enhancing Chinese Course consists of four hours of instruction per week. General Chinese and Enhancing Chinese Courses help students to understand and make basic Chinese daily conversation and able to read and write basic Chinese characters.

General Chinese courses are divided into three levels: elementary, intermediate, and advanced. Each level is sub-divided into sub-levels. The book used for the elementary and intermediate level courses is Practical Audio-Visual Chinese, published by Cheng-Chung Book Co, Taipei. The advanced levels include several courses such as Chinese news study, business conversation, radio drama, Chinese culture and entry-level classical Chinese.

Students are placed in PTCSL7908 (Semester 1) and in PTCSL7909 (Semester 2). Refer to the table below and the following chart for course information: <http://www.oia.ntu.edu.tw/upload/files/20170915160909.pdf>. Note that this chart is subject to change and different every semester. Elementary I, II and III courses are lower division. Intermediate I, II and III courses are upper division and referred to as “Advanced Intermediate” for reporting purposes. Advanced courses are upper division.

Course Title	Semester	Course Code	NTU Credit	CSU IP Units	Class Duration
General Chinese: - Elementary I, II and III: Lower Division - Intermediate (Adv. Intermediate) I, II and III: Upper Division - Advanced: Upper Division	Semester 1	PTCSL7908	3	6	6 hours per week for 17 weeks
	Semester 2	PTCSL7909	3	6	6 hours per week for 17 weeks
Course Descriptions: http://www.oia.ntu.edu.tw/upload/files/20161019145943.pdf					
Chinese Enhancing Course (optional course that must be taken concurrently with the General Chinese course): - Elementary I, II and III: Lower Division - Intermediate (Adv. Intermediate) I, II and III: Upper Division - Advanced: Upper Division	Semester 1	PTCSL7910	1	4	4 hours per week for 17 weeks
	Semester 2	PTCSL7911	1	4	4 hours per week for 17 weeks
Course Descriptions: http://www.oia.ntu.edu.tw/upload/files/20161019144445.pdf					

NTU Applied Chinese Courses

NTU offers programs on Mandarin Chinese language training and facilitated research projects. Each semester NTU offers 4-6 Applied Chinese Courses consists of approximately 8-12 hours of instructions per week. NTU Applied Chinese Courses bring in professors who are best in their field of research, and include a variety of topics such as Exploring Taiwan, Business Chinese, Chinese Folktales, Chinese Films and Practical Chinese Idioms. Since most of the courses are taught in Chinese, students must have a high level of Chinese language proficiency.

NTU Courses

All CSU IP students take regular NTU courses during the year. For courses taught in Chinese, students take their exams and write their papers in Chinese and are reminded that lectures and assignments may be more difficult than expected.

There are currently more than 800 courses taught in English. Courses include cultural, language economics of Asia, Taiwan or East Asian, are designed for international students to enhance their proficiency in Asian culture, literature and research. These courses are intended to extend students’ interest to the Asian region and gaining insight into the cultural dimensions of Asia. For additional information about regular university courses taught at NTU, refer to the website at http://www.oia.ntu.edu.tw/oia/default/article/detail/webSN/361/article_sn/103.

Each NTU course is assigned with a course identification number consists of a combination of letters and numbers. The letters represent the department code in which the course is offered. For the department abbreviation, refer to the university website at http://www.aca.ntu.edu.tw/curri/curs_deptabb.asp.

An inserted letter “E” in the middle of the course number (usually after the third character) means that the course is taught in English. When there is a “U,” “M,” or “D” in the middle of the characters (usually as the fourth character), then the course is an undergraduate (upper division), master or doctoral (Ph.D.) course, respectively. Courses designated by a “U” can be taken by undergraduate or graduate students. For undergraduate courses not designed by a “U,” the fifth character will be 1, 2, 3, and so on, and refers to the course level and the group of students for which the course is targeted.

The departmental abbreviation is followed by four digits. The first digit indicates the target students of a course in terms of their year of study. See table below.

Course Numbers	Notes
1000-1999	Courses for Freshmen
2000-2999	Courses for Sophomores
3000-3999	Courses for Juniors
4000-4996	Courses for Seniors
5000-5999	Upper division courses
7000-7999	Courses for Master's students

First and second year courses are generally considered lower division with some exceptions, depending on course content. Third and four year courses are more advanced and considered equivalent to upper division courses with some exceptions, depending on course content.

Undergraduate students are expected to take undergraduate courses while abroad. Students who wish to take a graduate course may do so if approved by their home campus academic advisor, registrar's office, and if in accordance with home campus course enrollment policy. Students are expected to meet course prerequisites and adhere to the same standard of work as required from other students in the graduate course. Students may not exceed one graduate course per semester, where permitted. Students who take a graduate level course are still expected to meet the enrollment minimum unit requirement of 15 units per semester and meet all course requirements as with any other course taken. Courses which are offered at the study center as a graduate level course only will be reported as a graduate course to the student's home CSU campus. Courses that are offered as either an undergraduate or graduate level course will be considered and reported as an undergraduate course in which no petition is necessary. Undergraduate students should exercise caution in taking graduate courses due to course difficulty and the higher standard of work expected from course registrants.

Academic Calendar

The academic year for CSU IP students at NTU consists of two 18-week semesters. The first semester normally runs from early September to mid-January. The second semester usually starts mid-February and ends in late June.

NTU General Chinese Courses are 17 weeks and usually start one week after the regular NTU semester begins.

Grading and Units

Below is the grade conversion that is used to convert grades earned at the NTU to the CSU.

NTU grade	NTU Grade	CSU grade
90-100	A+	A
85-89	A	A
80-84	A-	A-
77-79	B+	B+
73-76	B	B
70-72	B-	B-
67-69	C+	C+
63-66	C	C
60-62	C-	C-
59 and below	F	F
0	X	WU

The CSU grade of WU (Withdrawal Unauthorized) may be given in some circumstances, e.g. for uncompleted courses, dropping course with permission and unexcused absences. Refer to the *Academic Guide* for additional grade information.

Unit Conversion Guidelines

Below are the guidelines which are used to convert NTU credits to CSU units.

NTU Credit	CSU Semester Unit	CSU Quarter Unit
1 credit	1 unit	1.5 units

NTU Course Offerings

For information about regular university courses taught at NTU, visit the NTU website at nol.ntu.edu.tw. For general program information, refer to the 2018/2019 Pre-Arrival Guidebook for Exchange Students found [here](#), and Post-Arrival Guidebook for Exchange Students, found [here](#). (Note that the Guidebook for the following year is made available each late July/early August before the year begins.) For courses taught in English, click [here](#). Note that courses may not be offered or available every year.

Students take General Chinese course are required to register for either daytime or evening courses and take the placement test in person. Students can check their assigned course level one week after the placement test.

Below is a listing of some of the colleges and disciplines at NTU. For more information, refer to the following link: <http://www.ntu.edu.tw/english/academics/academics.html>.

College of the Liberal Arts

- Chinese Literatures
- Taiwanese Literatures
- Foreign Languages and Literatures
- Japanese Language and Literatures
- Linguistics
- Musicology
- History
- Art History
- Philosophy
- Anthropology
- Drama and Theatre
- Translation and Interpretation

College of Science

- Chemistry
- Physics
- Geography
- Psychology
- Oceanography
- Astrophysics
- Mathematics
- Geosciences
- Global Change
- Cosmology and Particle Astrophysics

College of Social Sciences

- Economics
- International Affairs
- Politics Science
- Sociology
- Social Work
- National Development
- Journalism
- Public Affairs
- East Asia Democratic Studies

College of Engineering

- Civil, Chemical, Industrial, Mechanical, Ocean, Materials Science, Environmental, Biomedical & Rehabilitation Engineering
- Engineering Science
- Applied Mechanics
- Building and Planning
- Manufacturing Automation

College of Bioresources and Agriculture

- Agronomy
- Bio-Environmental Systems Engineering
- Agricultural Chemistry
- Plant Pathology and Microbiology
- Forestry and Resource Conservation
- Animal Science
- Agricultural Economics
- Horticulture and Landscape Architecture
- Bio-industry Communication
- Bio-Industrial Mechatronics Engineering & Automation
- Entomology
- Food Science and Technology
- Biotechnology
- Histopathology
- Microbiology
- Plant Medicine

College of Management

- Business Administration
- Accounting
- Finance
- International Business
- Information Management
- Management Marketing

College of Electronic Engineering & Computer Science

- Electrical Engineering
- Computer Science and Information Engineering
- Networking and Multimedia
- Communication Engineering
- Electronics Engineering
- Biomedical Electronics and Bioinformatics
- Communication Research

College of Life Science

- Life Science
- Biochemical Science & Technology
- Zoology
- Plant Biology
- Molecular and Cellular Biology
- Ecology and Evolutionary Biology
- Fisheries Science
- Microbiology and Biochemistry
- Genome and Systems Biology
- Fishery Biology

For questions about courses, registration to the university, contact Ms. Margaret Wang at wangmargaret@ntu.edu.tw.
