*If a student cannot furnish proof of health insurance that meets campus requirements, the student must purchase health insurance from the campus unless instructed otherwise.

** Campus to advise upon request.

***There are no campus fees charged or published at this time although this is subject to change.

Notes:

Information on this page including campus costs, campus health insurance requirements, health insurance costs and health insurance providers used is subject to change.

As part of the application process, exchange students are required to furnish verification of finances for the amount listed for the campus (or campuses) that they have listed on their application.

All students are required to purchase health insurance that covers the exchange period. Most campuses require that students purchase their health insurance regardless of whether the student has health insurance from their home country.

Campus-based fees are not covered by the exchange agreement and are subject to change (or added where not indicated). Fees are due upon invoice. Nonpayment of fees by the deadline date can result in disenrollment in classes, registration holds, non-release of the final transcript or dismissal from exchange.

In addition to campus-based fees (where listed), students may incur course fees that are not covered by exchange (for course supplies, lab fees or field trips).

For the San Jose campus, the cost of health insurance is difference for each term. Fall semester is \$795 and Spring semester is \$1095.
